

URGANCH INNOVATSION  
UNIVERSITETI

# URGANCH INNOVATION UNIVERSITY

***President of the Republic of Uzbekistan Shavkat Mirziyoyev said: “the main purpose of the New Uzbekistan will be knowledge, education and upbringing! It is worth noting the opinions that on the basis of the development of Public-Private Partnership in the field of Higher Education, the organization of the activities of public and non-state higher education institutions in the regions should increase the level of knowledge with higher education by 50%, create a healthy competitive environment in the field, introduce advanced standards of Higher Education. In a significant aspect, the principle of “for the sake of Man” is gaining priority in the updates carried out. We can also say that the establishment of the Urgench Innovation University in 2022 is one of the effective results of these reforms. URI currently has about 4,000 students studying in full-time and part-time forms of education in 10 undergraduate areas of study and 4 graduate specialties. In particular, among them there are 2 champions of the Republic. The processes of education and upbringing are inseparable from each other, they form the basis of our activities. The main task of our university is not only to train highly qualified specialists, but also to educate perfect people. We must not forget that, in addition to giving students deep knowledge, we are responsible for developing their moral qualities, educating citizens who are committed to national and universal values.***

***Ishmuratov Madamin Jumabayevich  
Rector of Urgench Innovation University,  
Candidate of Philological Sciences and Academic of  
Turon Academy of Sciences***

UNIVERS

***Urgench innovation university is operating under license No. 391340 of the State Inspectorate for quality control of Education under the Cabinet of Ministers in 2024, granting the right to operate in the field of Higher Education.***

***Urgench innovation university was established in 2022. There are 10 undergraduate directions, 4 graduate specialities and about 4000 students are studying in full-time and part time forms of education.***

# International scientific and practical conference on "issues of social and humanitarian Sciences in the development of modern science"

# FUTURE PLANS

In the future, it is planned to open several directions in distance education based on foreign experiences from the 2025-2026 academic year. In addition, it is envisaged to accelerate the work on the exchange of professors and students with Asian and European countries. The university is currently planning to add 4 more specialties to the 10 available ones in the form of undergraduate full-time education. These are

1. Explotation of means of Transportation
2. Computer Engineering
3. Biology
4. Design
5. Computer Systems and Software
6. Information Technologies in Education

It is planned to publish educational literature in cooperation with the top-1000 Universities, as well as

Urgench Innovation University is planning to build a 7-storey building with 3500 places with all conditions

Urgench Innovation University is planning to build a 4-storey dormitory for 1000 students with all facilities
